My mother-in-law is a fantastic cook and is well known throughout the island for her famous baklava. I have watched her over the years in her sacred *kouzina*, preparing her rich, nutty, *gleeko* and yet never been able to duplicate it. I finally gave up and decided to create my own version in a bar of soap using many of her same ingredients. Fresh butter, honey, walnuts, almonds, a touch of cinnamon, cloves, and nutmeg; how could I go wrong? Success!!! This soap took me 2 years to perfect, and perfect I did. I believe there is nothing in the world like it and it is a must "once in a life" *experi-scent*. Don't shy away because of the ingredient list; they all do great things for your skin.

P.S. If you ask for my secret baklava soap recipe, I promise not to intentionally leave out any important ingredients!
