Who can forget *yiayia* and her bag of wild mountain teas? Village lore has it that a sip of warm chamomile tea, laced with a touch of honey, will cure all. The island's older generation still live and value the simple life. They have always relied on homeopathic cures through the use of the powerful antioxidant and medicinal properties derived from Nature's Rx and her herbal teas. This time-honored plant essence combination reflects the ancient Greek art of healing and spiritual balance.

We are sure EYEA, the goddess of good health, would have given our gentle combination of chamomile tea, enhanced with wild lavender essence, two thumbs up.
