Since ancient times, green tea has been revered in the Orient for its health-giving and powerful antioxidant properties. Our delicate tea soap is ritualistically prepared using a green tea infused hydrosol of lemon and hibiscus flowers. The addition of soothing rice water, silk fibers, green tea extract, camellia (tea seed) oil and rice bran oil (believed to hinder ultraviolet rays as they meet the skin's surface) add wonderful skin rejuvenating qualities to this incredible detoxifying soap.

Nature's Rx: Green tea and green tea extracts contain potent antioxidants, polyphenols and theanine as well as high levels of skin friendly vitamins and minerals. The botanical extracts of lemon and hibiscus flowers add to the aromatherapeutic and antioxidant properties of this healing "ancient Chinese secret" soap.

NOTE: This tea soap was inspired by Todd & Holland Tea Merchant's lemony floral "Green Tea with Lemon & Hibiscus". Tea time and soap *thyme*, a soothing detoxifying match made in nirvana! www.todd-holland.com
