of bar

Red South African Rooibos tea captures the sun's energy and soil's nutrients, giving us their rich gifts of vitamins, minerals and enzymes. An extra shot of beneficial vitamin C from the essence of raspberries, enhances this age-defying, antioxidant soap to the near perfection. This bar has often been referred to as "your skin's best friend" soap.

Nature's Rx: Red Rooibos is extremely rich in an assortment of vitamins, minerals, enzymes and chlorophyll serving up a powerful antioxidant cocktail. It is most importantly loaded with the enzyme, superoxide dismutase (SOD), which appears to be a prime scavenger of free radical cells responsible for premature aging of the skin.

NOTE: This tea soap was inspired by Todd & Hollands Tea Merchants "Rooibos Raspberry Delight" tisane

tea blend. Why not nourish and hydrate your body at once with *Tea Time and Bath Thyme*. Bring a little luxury into your life with the combination of these pampering pleasures straight from Mother Nature.
